

FRIDAY RECAP JUNE 23

Distraught, Overwrought, and Aggravated

Titanic Submersible imploded, 5 dead. 78 dead in Greek capsizing.

Bet only one makes it into the Mainstream Media.

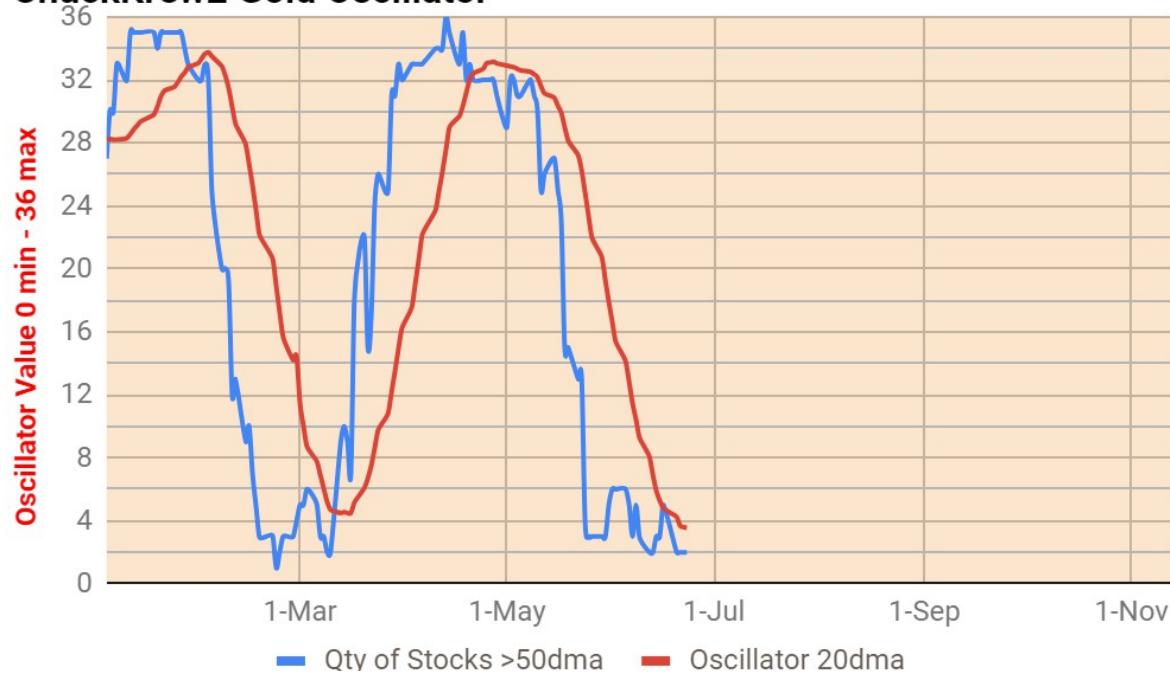

OR 15.06 minus 7 cents

HGU.To 12.43 plus 12 cents.

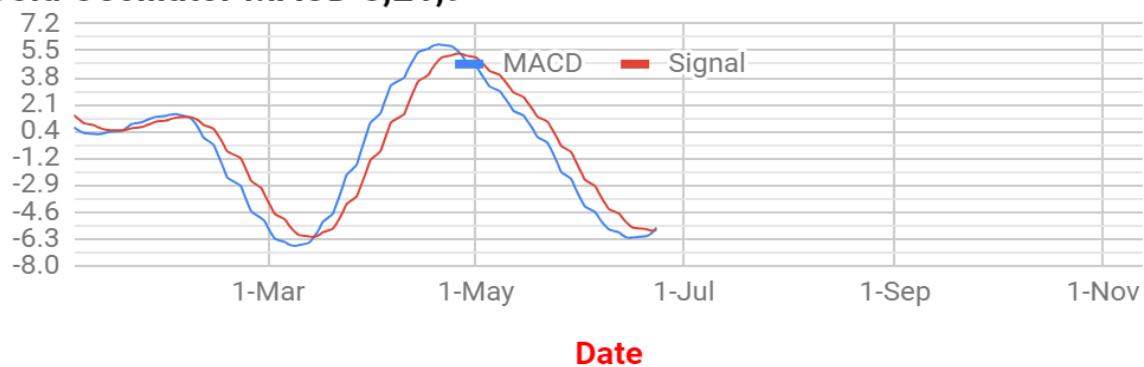

Aggravated and tired and glad its a quiet weekend or will the grand kids be over ?? How about a look at how things are ? Start with K-2 Oscillator:

Wow looks like Mark Woo smashed down on coral reed, bottom bouncing.

ChuckKrew2 Gold Oscillator

Gold Oscillator MACD 8,21,9

MACD confirms prices for the 36 stocks are bottom bouncing. Good alert.

FRIDAY RECAP JUNE 23 -2

I noticed this week that all the "Littles" were turning up en masse like happens before a major move or tectonic shift. Since April, the metals and miners have suffered under dumping by bullion banks, and perhaps theft of Ukraine's gold. Maybe raw gold is absorbing escalating prices for Anon. Weapons and war goods.

Thirty-six of the most representative Gold Miners, with only two over their fifty day moving average, is BOTTOM COUNTRY. That's one heads up. More?

Lets go back to RSI, really our canary in the coal mine. All of them are in BOTTOM COUNTRY.

Looking at them individually:

OR down 7 cent, RSI 37.6

GDX down 6 cent, RSI 35

HGU.To up 12 cent, RSI 28.6

XGD.To up 3 cent, RSI 27.6.

So what is it all about Alfie ?

Seems to me as if those who controlled the News Cycle were looking to deflect attention from some of the bigger political stories. Just another week of the propaganda wars. Seems no one wants to dance to the CBDC boogie.

I noted that some of my "Littles" and "Middies" were acting as if a Jail Break was in progress. If TPTB are unable to sustain the pressure, and potential buying materializes, it would fit the puzzle in my opinion. Two "Littles" I like are **LAB.V**; **PGE.V** . A bit larger, one of my "Middies" which has run up and down is **MAW.To**. None of these relates to the BETA TEST, but they are **FYI**.

If you enjoy the RECAP you can <http://buymeacoffee.com/denalignguide> Meanwhile, keep some dry powder and keep that field awareness turned up to max. Best, **DG**
